Item	Description
-------------	--------------------

1	Presentation
----------	---------------------

Jo Kelly and Tom Rivard project consultants presented a progress report outlining work undertaken to date, results of community consultation and sought direction regarding further consultation and priorities.

The report:

- Illustrated constraints and opportunities with regards the seven Place Vitality Criteria used to analyse Brooklyn
- Summarised community consultation methods and outcomes to date including the dominance of parking and built form preference
- Identified draft Place Principles which would form the basis of the Master Plan

2	Discussion
----------	-------------------

General discussion included:

- The need to seek community responses to a range of potential built forms during upcoming consultation

- The nexus between development and funding for the infrastructure and public domain improvements

Recommendations/Outcomes:

The progress report was noted and it was agreed that the upcoming CRG meeting and workshops should seek community feedback regarding a broad range of land uses, community facilities and built forms.

Next meeting: Date and time to be advised.
