FOXGLOVE OVAL ENVIRONMENTAL WORKS

NOTIFICATION OF REMEDIATION CONSTRUCTION WORKS AT NORTHERN BOUNDARY OF FOXGLOVE OVAL 16 June 2022 – October 2022

Dear resident

As a local resident and/or user of Foxglove Oval, Council would like to advise you that in accordance with the Clean-up Notice from the NSW Environmental Protection Authority (EPA) to Council, construction for the remediation works in the northern batter of Foxglove Oval will be commencing in mid-June. These works are required to reduce the landfill gases (methane and carbon dioxide) moving offsite. You can expect to see activity on and around the site until October 2022. The work will be conducted between 7am and 5pm Monday to Friday.

Remediation contractors will be using the turning circle at the north of the Foxglove Oval parking area during the period of remediation works. This area will be fenced and an alternate turning area will be made available for public use.

Council would like to thank the local community for its ongoing patience as we address the landfill issues and apologise for any inconvenience this work may cause.

If you have any questions regarding this activity, please do not hesitate to contact Council via our project email or the 1800 number below.

Kind regards

Ian Downes
Project Manager
