**WORKS DESCRIPTION**

Following consultation with residents and adjacent landowners between August 2021 to June 2022, Council has been working on alternatives for this proposal on Council managed land.

To incorporate the overall community response, the project has been split up into stages:

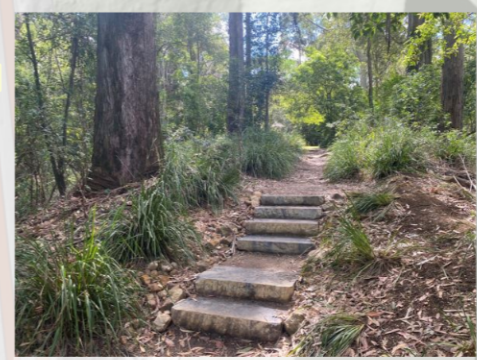

**STAGE 1** – Walking Tracks surrounding Mills Park, now including Chelmsford Rd to Mills Park track junction to Stokes Avenue – Track ‘Class 4’ ‘Class 4’ is due to more challenging terrain features. There is currently a negotiable pass down the rocky escarpment where step irons would be installed and a rock hop over the creek line area.

**STAGE 2** - Walking track upgrade and new track Stokes Ave to Michigan Ave.

**STAGE 3** - Walking track upgrade and new track Queens Ave to Chelmsford Ave.

Stage 1 works are scheduled to commence in November 2022, weather pending.
