

3D Works – Category definition

3D Works are any artworks that have been created in three dimensions by one (or more) of five processes: carving (any medium), modelling in clay, modelling and then casting, constructing (any medium) and assemblages.

The maximum size of 3-dimensional works is limited to eighty centimetres (80cm) in any one direction and 15kg.

Artists submitting a 3-dimensional work must submit their work on a white plinth.
