

Project Description

As identified in Councils Walking and Cycling Strategy, this project involves construction of a new bush walking track link to the south of Pennant Hills Park.

The 800m length walking track will have six access points and links the existing Mambarra Track to the Fire Trail near the Archery Range. This creates a new opportunity to experience the 5.7km long circuit walk known as the 'Whale Rock Loop' completely immersed in bushland.

Following the outcome of public consultation and environmental assessment, works are about to commence.

Works include:

- Vegetation & drainage management
- Installation of 1m wide sandstone steps
- Stepping stones over creek lines
- Installation of wayfinding signs

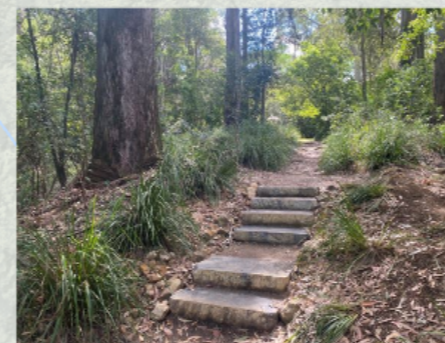

Works are expected to be completed by February 2023, weather permitting.

Works will take place between 7am-5pm Monday to Friday with no work on weekends or public holidays.

For enquiries contact David Green on 9847 6851 or dgreen@hornsby.nsw.gov.au
